Choose the exam date which suits you the best

Immense, Incomparable & Vital

That's the significance of these academic yardsticks when it is about planning for your child's academic goals and career path

Knowing Current Academic Capabilities You & your child need to discover your child's current academic capabilities especially aptitude, comprehension skills, analysing capability, general IQ & IQ specific to the career choice. This can be done through specific tests testing some specific concepts cutting across subjects.

Knowing Academic Inclination for a stream No one career is for every child. It is important for you & your child to discover his / her subject-wise aptitude at an early stage, so that correct stream is chosen in class XI to prepare earnestly for a successful career in the chosen stream.

Discovery through Scientifically Designed Tests All the above can't be done through just any test. A child needs scientific testing that also has a pattern similar to various prominent National Level competitive & scholastic exams.

Realising National Level Academic Standing Career dreams can't be realised without knowing where you stand in the competition. Practically all career defining competitive exams as well as top scholastic exams are conducted at the National Level. Whether a child is choosing Engineering, or Medicine, or Pure Sciences, Law, CA, Fashion, Business et. al., he / she needs to know his / her National Level Standing (Success Potential / Rank Potential Index) for the relevant exams at the earliest possible but not later than end of class X. Though it is better done late than the actual exam day.

Discovering the road to optimum success After all the analysis, you & your child need to know what needs to be done for unravelling his / her total potential (manifested & hidden). This is the most crucial step. It needs to be done carefully. Your child will be happy working hard, with this clarity rather than feel stressed or even depressed. You love your child, isn't it ?

To achieve my aim of building a career in Law, I took **Humanities** in class XI & XII. Facts are the Testimony

Nithin Babu

He appeared in FIITJEE Admission Test on 6th April 2014 and scored just 33% Marks in FIITJEE Admission Test (& no Scholarship).

He joined FIITJEE's Four Year Classroom Program and secured **All India Rank 216** in JEE Advanced.

"Taking off from 33% marks in FIITJEE Admission Test to **All India Rank 216 in JEE Advanced** could only be possible with FIITJEE. The only institute that has transformed not only my life but hundreds of others"

To become an IITian is one dream that I always wanted to fulfill, but being an average performer, I was never encouraged until I approached FIITJEE. Convinced with the proven results of FIITJEE for decades, I decided to appear for its Admission Test on 6th April 2014, in which I scored only 33% with no scholarship. I then joined FIITJEE Four Year Classroom Program wherein I witnessed many other students like me already gaining benefits from the guidance of its expert faculty. The teachers worked 360° to plug in my academic loopholes. FIITJEE's support and my determination together have made me a proud IITian with All India Rank 216 in JEE Advanced 2018. Big thanks to FIITJEE!

"With my remarkable experience of four years with FIITJEE, I can definitely say that **studying at FIITJEE at least till class X** is a must irrespective of your stream choice. It's sure to bring you the desired results"

I thank the day when I decided to join FIITJEE. Even after being an average academic performer, I planned to appear for FIITJEE Admission Test in 2014 but attained only 30% with no scholarship. I joined its Four Year Classroom Program. Since I joined it in class IX only, I could take the maximum benefit of the provided study material and schematic test schedule. Joining early made my foundation concrete by the time I reached class X, which ultimately boosted my performance in secondary classes. Only by following FIITJEE, my dream of becoming an IITian was accomplished. Yes, I cleared JEE Advanced (2018) with an All India Rank 518. Heartily thanks to FIITJEE.

Start Early, Beat the Competition

Serious Students aspiring for success with a **good Rank in JEE Advanced / JEE Main / other Competitive Entrance Exams** understand the importance of starting their preparation early. As these exams have become more competitive now, it is necessary to build a strong foundation, as early as possible. FIITJEE's early edge programs are designed to give dedicated Students that extra advantage which helps them secure a Top Rank in JEE Advanced / JEE Main / other Competitive / Scholastic Exams.

FIITJEE Programs are conceptualised in a way to give Students, an edge over their peers in various Scholastic / Competitive Exams in the following ways :

- Students will get more time to adapt to the quantum jump in the level of difficulty with more ease as there will be enough time for understanding and consolidation over a longer spread out academic plan.
- Students would get the opportunity to ensure Optimum utilisation of available time.
- Early starters will always have more time before the actual Board & other Competitive Entrance Exams as their course curriculum will finish much before the batches starting later, thus giving them maximum lead over others before the target exam.
- Students will have the opportunity to focus on consolidation of their performance and self-revision, honing of examination temperament & removal of last moment doubts. This is vital in achieving a quantum jump in Rank in JEE Advanced / JEE Main / other Competitive / Scholastic Entrance Exams.

Academic Inputs will be provided soon after enrolment in the form of :

- **Class - V (going to Class VI in 2024)**
Pre-course academic input material [Physics, Chemistry, Biology & Mathematics Booklet & Mock Test Paper - IQ / Mental Ability and Jr. Science & Mathematics Olympiad].

Why only FIITJEE?

Different
STUDENTS

Different
POTENTIAL

Different
GOALS

Can any institute help unravel 100% of total potential for every student,
whatever be their current Academic Standing ?

Yes, FIITJEE can. And only FIITJEE can.

FIITJEE is the only institute in the world that has developed a pedagogy,
powered by an Innovative Technology Platform, to enable students to achieve this.

FIITJEE Classroom Program students have dominated IIT-JEE / JEE Advanced since 1997 and practically every scholastic & competitive exam for the last 15 years.

Traits that make FIITJEE the Only Choice for Students

✓ We innovate, others follow

- We are the only institute in India that has the capability to predict accurate Rank Potential Index (RPI) of a Student & have the expertise to take the Student beyond the demonstrated potential.
- We were the first to launch courses for Class VI, VII & VIII focusing on enhancing Logical Thinking, IQ, Mental Ability, at a level required for National Level Scholastic Exams like NTSE & NSEJS.
- We were the first to give Students the Integrated Environment to have synchronised study, simultaneously preparing the Students for School, Boards & all Competitive Exams.
- We were the first to create & launch an AITS (All India Test Series) for IIT-JEE / JEE Advanced.
- We are the only institute capable of training faculty for not just IIT-JEE / JEE Advanced but also for JEE Main, Olympiads & NTSE. Other institutes have tried & failed.
- We are the only system driven, corporatised institute in the Test Prep space. Preparing a child for success is much more than mere teaching. No one, we mean no one, except FIITJEE can do it consistently. When your child is at FIITJEE, he / she is in the best system and his / her future does not depend on chance.

✓ Nobody can compare with our results in JEE Advanced / IIT-JEE, JEE Main, Boards, Olympiads, NSEJS & NTSE.

FIITJEE brought transformational change in my performance with respect to various competitive exams and JEE. Study package, PAQ, WAQ, phase tests, AITS, AITS all helped me improve my performance and develop confidence. Continuous concept wise teaching by teachers helped me analyse my strengths and weaknesses in various topics. If I sum up, FIITJEE system is a complete package for preparation of JEE Advanced and Olympiads and I didn't feel any need for external help.
 I thank FIITJEE for bringing my performance in JEE Advanced to an excellent All India Rank. I also thank my parents and teachers for their extraordinary guidance. *Rishi*

I am Prabhav Khandelwal, a student of 1 year classroom program at FIITJEE. I joined FIITJEE for help and guidance from the faculties of FIITJEE. The faculties at FIITJEE were very helpful and helped me with every problem in every subject.
 The AITS conducted in FIITJEE were expertly designed in accordance with the pattern of JEE-ADVANCED exam. The questions asked in AITS were unique and high quality. The classes of FIITJEE also helped in strengthening of my concepts in every subject. The teachers explained every topic and doubt thoroughly.
 Specialised online sessions for the revision of the syllabus for JEE-MAIN and JEE-ADVANCED also helped me very much. I would sincerely thank FIITJEE for my success. *Prabhav*

 Four Year Classroom Program (IX - XII),

 Integrated School Program (XI - XII)

I have been studying in FIITJEE since class 9. I got ample time to self-study, and could easily take out the time to study astronomy, while continuing my regular studies for JEE at FIITJEE.
 My teachers here at FIITJEE helped me to build a strong base in all physics, chemistry and mathematics, which helped me to crack INAO and later study astronomy and astrophysics in depth. I didn't take any external support from any other coaching institute.
 I feel grateful to have secured such a good rank, and devote my success to the efforts of my parents, my teachers and FIITJEE. *Malay*

FIITJEE Pillars that have led to dominating JEE Advanced, IIT-JEE Results consistently since 1997.

We are always 100% Honest, Ethical & Transparent.

We never poach faculty or any staff from any coaching institute or other organisation.

We never poach students from any coaching institute.

We have never created programs that are aimed at only getting Top Ranks, but result in the suppression of creative & strategic thinking of students. Therefore our students also excel in IITs, NITs, various other institutes etc. and do well in life ahead.

FIITJEE is the only institute that clearly mentions the exact & complete details of the Classroom Program(s) of enrolled students while publishing the result of any competitive or scholastic exams.

From All Programs, 37 in Top 100 All India Ranks in JEE Advanced

DO YOU **KNOW** THAT

FIITJEE'S PROCESS OF ACADEMIC CULT METAMORPHOSIS INCREASES YOUR CHILD'S

THINKING CAPACITY, LEARNING SPEED, RETENTION POWER, AND SCORING ABILITY

SO THAT HE / SHE ACHIEVES SUCCESS NOT ONLY IN
JEE MAIN, JEE ADVANCED, JR. & SR. OLYMPIADS, NTSE & ANY OTHER TARGETED
COMPETITIVE / SCHOLASTIC EXAMS BUT ALSO IN CAREER AND LIFE !

Therefore, your child must study at FIITJEE till Class X irrespective of his / her choice of stream (Arts / Commerce / Engineering / Humanities / Medical) and if he / she opts Physics, Chemistry & Mathematics in Class XI and wishes to pursue a non-engineering / pure sciences career, then also he / she must study with FIITJEE till class XII to acquire logical thinking and analytical skills required for success in competitive exams, career & life.

Our Process of Academic Cult Metamorphosis optimises your child's brain and...

DO YOU **KNOW** THAT

An Engineering Degree from any Engineering College or University May Not Lead you to an Effective Career & Growth ?

“48% engineers unemployed”, said Niti Aayog Vice Chairman Mr. Rajiv Kumar

(<https://www.newindianexpress.com/nation/2022/jan/21/higher-education-stagnated-in-india-48-engineers-unemployed-niti-aayog-v-c-2409403.html>).

A NASSCOM survey in 2019 had concluded that only 2.5 lac out of 15 lac engineering graduates succeed in getting job in the engineering sector

(<https://www.indiatoday.in/education-today/jobs-and-careers/story/employers-want-advanced-skills-in-engineers-not-just-knowledge-1879684-2021-11-22>).

While there are reports that nearly 80% of engineering graduates in India remain unemployed in Engineering or any gainful sector

(<https://www.indiatoday.in/education-today/featurephilia/story/80-engineers-are-unemployed-how-can-we-prepare-engineers-for-the-jobs-of-tomorrow-1468240-2019-03-01>).

Most of these end up with very low profile jobs with salaries in the range of 1.5 - 3 lac per annum & poor career growth thereafter and practically no other career opportunities. While engineering graduates from IITs, NITs & other good Government / Private colleges are coveted with minimum starting salaries of 10 lac+ per annum approx. & stretching upto even 1 Cr+ per annum.

So, choose the Branch & the Engineering College / University that will help you get a Good Job, Growth & various career opportunities. Do not compromise with your career. If you are aiming for a Branch and College / University that can give you an effective career & life, then commit yourself to prepare sincerely for JEE Main, JEE Advanced & other entrance exams for reputed colleges and secure admission in a Branch & College of your choice.

- **You** always wanted to join FIITJEE Classroom Program but couldn't due to unavailability of FIITJEE centre in your hometown and your parents don't want you to travel to another city & lead the hostel life.

Where life begins with a transformation !

Growing materialistic outlook has degraded the Hallowed World of School Education. Search of parents for a school that can ✨ build fundamentals of their children ✨ create overall academic excellence in schools, boards, competitive & scholastic exams and without undue stress ✨ develop creative & strategic thinking ability, and proficient & confident communication skills ✨ inculcate strong value system ✨ inculcate sports & exercises as a way of life ✨ focus on mental, emotional, & spiritual well being ✨ instil spirit of exploration & entrepreneurship ✨ develop right personality traits & positive attitude required for success in life, has been elusive.

Though coaching has been helping the students score better in schools, boards, and competitive & scholastic exams, however it has taken most of the students away from holistic development & has generally caused unidirectional development of children. Mostly, such coaching does more damage to a child's life in the long run. At FIITJEE, we never focused on just results in scholastic & competitive exams but endeavoured for holistic academic development with enhanced creative & strategic thinking skills. That is the reason why FIITJEE students do well in colleges & then in life, including as an entrepreneur.

Our Integrated School Programs achieved beyond this for students & unlocked vital time for sports & extra-curricular activities. However, the need for Transformational Holistic Development from Nursery to class XII was still unfulfilled. **Launched in 2021, FIITJEE Global School, fills this vacuum and endeavours to provide Ideal School Education. We are committed to ensure that every student at FIITJEE Global School achieves a rewarding Career in any Stream of their choice in India or Abroad.**

In 2023, the very first batch of class X from FIITJEE Global School achieved an Academic Distinction that no other School in India could achieve even in a decade of its operation.

I am Anirudh Adithya. N and I joined FGS Chennai in 9th grade. Under the guidance and support of my teachers, I was able to secure 489 marks in CBSE 10th board exam 2023.

Right from 9th grade my teachers helped me build strong foundation in all subjects. They made even the toughest concepts easy to understand. Whenever I ran into doubts they helped me by clearing it.

FGS ensured that I focussed on all subjects equally. They also focussed on my holistic development by making me participate in monthly competitions, astronomy, robotics, Kaizen, etc

I devote my success to the efforts of my parents, teachers, and the management.
